

## **OUNI CHAYMA - Cover Letter**

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Software Engineer position at XYZ Corp., as advertised on [Platform where you saw the job posting]. As a student in Software Engineering at TEK-UP University, I have developed a strong foundation in web development technologies, including Django and React, and I am eager to contribute my skills to your team.

My experience includes developing and consuming APIs using SpringBoot and Angular, along with UML modelling and automated testing with Selenium. Notably, I've worked on projects involving real-time messaging with WebSockets and a smart platform for managing lost and found items, leveraging NLP and image recognition.

I am particularly drawn to XYZ Corp.'s focus on [Mention something specific about XYZ Corp. that interests you - e.g., innovation, a specific technology, or company culture]. I am a highly motivated and rigorous individual with excellent teamwork skills and a passion for creating innovative software solutions.

My resume, attached for your review, provides further detail on my qualifications and projects. Thank you for your time and consideration.

Sincerely,

**OUNI CHAYMA**
